

I Really Want You

Many **prophets** preach on bended knee
Many **clerics** wasted wine
Through the bloody sheets
On those cobbled streets I have wasted time
Are there silver shores on paradise?
Can I come in from the cold?
I **killed** a man in a faraway land
My enemy untold
I really want you to really want me
But I really don't know if you can do that
I know you want to know what's right
But I know it's so hard for you to do that
And **time's running out** as often it does
And often dictates that you can't do that
If fate can't break this feeling inside
That's burning up through my veins
I really want you I really want you
I really want you now
No matter what I say or do
The message isn't getting through
And **you're listening to the sound**
Of my breaking heart
I really want you (2)

Is a poor man rich in **solitude**?
Or when mother earth complain
Do the **beggar** pray for a sunny day but
Lady luck for rain
They say a million people bow & scream
To an **effigy** of gold
I **saw** life begin And the ship we're in
And history unfold
