

## My Honey

You **came** to me so slowly  
Like a sunrise in my room  
Soft and golden on my shoulders  
Chasing every little gloom  
I never **knew** a feeling  
That could **melt** my heart this way  
But darling when you hold me  
All my doubts just fade away  
My Honey My Honey  
You're the sweet inside my days  
My Honey My Honey  
You light me in the softest ways  
My Honey My Honey  
You're the calm in every storm  
My Honey My Honey  
With you my heart is always warm  
You whisper simple stories  
But they stay inside my mind  
Funny how the smallest moments  
Are the ones I always find  
You make the world feel softer  
Like a gentle lullaby  
And every time you smile love  
I forget the reasons why  
My Honey My Honey  
You're the sweet inside my days

My Honey My Honey

You light me in the softest ways

My Honey My Honey

You're the calm in every storm

My Honey My Honey

With you my heart is always warm

Oh

Stay with me

Stay with me forever feels like home

With you
